Related and ancillary activities or common issues associated with the Partnership's priorities as they evolve over time C. Discussion **Liaison Marc** 5. Review, discuss CMRP's regional planning project/Framework 2030 Goals and Objectives Schneider (summary below) a. Review these Goals and Objectives, finalized by Partnership in early 2020 The Partnership will develop, describe, and illustrate a collective regional vision and goals, inclusively engage stakeholders, and thoughtfully plan to maximize benefits and minimize negative impacts of growth. The Framework is expected to: 1. Establish a unified set of regional goals, policies, and priorities that Partner communities work to achieve and implement; it is not a regional comprehensive plan 2. Include guidance developed with Partner communities on how they can refine their local approaches, policies, plans, projects, and regulations over time to harmonize with the regional direction Based on decisions beginning at the June 2019 workshop, there was strong ii. consensus around who, how, what and why of this effort; through the planning process, the Partnership intends to: 1. Reach consensus on major opportunities and choices that benefit the region, and successfully collaborate to maximize benefit and minimize risk 2. Position Partners to be leaders and shape their own futures individually and collectively (rather than being the subjects of others' decisions and direction) 3. Support connectivity within the region, and between the region and beyond iii. As a result of this regional planning project (outcomes), the desire is that: 1. Partners align around shared priorities and commitments 2. The region is more collaborative and trusting 3. There are beneficial regional outcomes in the short-, medium-, and long-terms 4. Jurisdictions in the region make measurable, meaningful progress toward shared goals and priorities b. Discussion **Liaison Marc** 6. CMRP regional planning project/Framework 2030: Review status/Round 2 Schneider a. In September 2020, the Partnership reviewed, discussed, provided direction, and approved the conceptual direction, draft vision and strategies, and Round 2 questions, and formally authorized Round 2 launch to gather feedback on draft vision and strategies through a combination of online tools and some in-person sessions b. By mid-October, staff/consultants prepared and launched the online survey and organized/hosted a few in-person sessions. Planning staff have been "softly" promoting the online through some of the same networks used for Round 1, with minimal support from administrators and Partners. Attendance at in-person sessions in October and November was very small and total online respondents are under 50; by contrast, in Round 1 over 1,200 people contributed over 7,000 ideas/comments. 7. CMRP regional planning project/Framework 2030: Discuss identified issues

- a. **Obligations, timing:** It is imperative that we gather Round 2 feedback from community stakeholders via the online survey, from the *Partnership* through a virtual engagement session, *and* from Partners' home elected and appointed bodies likely through a combination of online and virtual engagement sessions. Concerns have been expressed that in light of COVID, recent elections, ongoing and timely obligations, etc., Round 2 is not getting the support necessary to get the outcome needed.
  - a. Future plans for Round 2 virtual engagements with and hosted by Partner elected/appointed officials. Purpose is to ensure that every Partner elected body and appointed groups directly shape Framework 2030 decisions. These engagements will be supported by consultants and staff.

#### b. Discussion

## Chair Vetsch

**8.** Plan next steps, future meeting agendas: Based on discussions and guidance above, identify any <u>new future CMRP</u> work activities and/or agenda items. <u>Previously</u> identified CMRP work for December 2020-February 2021 includes the following:
